EDUCATION

State University of New York at Buffalo (SUNY Buffalo), Buffalo, NY

August 2025 – Present

Master's in Financial Risk Management

Acropolis Institute of Management Studies, Indore, India

2022 – 2025

Bachelor of Business Administration

SKILLS

Finance: Financial Analysis, Financial Modeling, Portfolio Management, Asset Allocation, Equity Research, Risk Analysis, Investment Management

Accounting: Financial Statements, Balance Sheet Analysis

Technical: Microsoft Excel, Python, Pandas, NumPy, SQL, Portfolio Analytics

Professional: Analytical Thinking, Leadership, Communication, Time Management

EXPERIENCE

M/s Chandra Industries, Accounting Intern

January 2025 – July 2025

- Managed financial transactions, bookkeeping, and account reconciliations, improving accounting accuracy and compliance by 40% across monthly financial operations.
- Prepared financial statements and supported tax filings, reducing financial data entry errors by 30% across monthly reporting and documentation processes.
- Streamlined accounting processes and reporting workflows, improving operational efficiency by 50% and reducing manual effort across recurring financial tasks.
- Analyzed revenue trends and profitability to deliver financial insights supporting budgeting, forecasting, and business decisions for improved financial planning outcomes.

Radiant Metal, Financial Analyst Intern

June 2024 – December 2024

- Evaluated pricing models and forecasted profit margins across 5+ product lines, improving margin analysis accuracy by 12% through detailed financial modeling.
- Performed budget variance and financial performance analysis, improving forecasting accuracy by 15% for management reporting and strategic planning decisions.
- Analyzed month-end financial reporting workflows, reducing closing time by 20% while maintaining 100% reporting compliance and data accuracy standards.
- Conducted vendor and procurement cost analysis, identifying savings opportunities that reduced procurement costs by 10% through improved supplier evaluation processes.

PROJECTS

Chipotle Three-Statement Financial Model | *Excel, Financial Modeling, Forecasting*

- Built a fully linked three-statement model using FY2022–FY2024 Form 10-K data and FY2025E–FY2029E forecasts driven by restaurant-level unit economics and operating assumptions.
- Integrated income statement, balance sheet, cash flow, lease, PP&E, equity, and share-count schedules with Base, Bull, and Bear scenarios, validated through 40 internal and 129 audit checks.

Eli Lilly Valuation Model | *Excel, DCF, Financial Modeling, Valuation*

- Built a DCF valuation model with 2026–2030 revenue forecasts, operating margins, WACC, terminal growth, and free cash flow projections to estimate intrinsic value.
- Calculated \$784.3B implied equity value and \$877.32 share price using 6.9% WACC, identifying 8.2% downside and assessing GLP-1, pricing, tariff, competition, and regulatory risks.

Portfolio Risk Doctor | *Python, Streamlit, pandas, NumPy, SciPy, Plotly*

- Built and deployed an interactive portfolio risk platform calculating CAGR, volatility, Sharpe, Sortino, beta, maximum drawdown, VaR, CVaR, and risk contribution.
- Developed technical-analysis and stress-testing modules using SMA, RSI, MACD, Bollinger Bands, market shocks, and sector selloffs with an explainable 0–100 Portfolio Health Score.

Corporate Credit Risk Model | *Python, Streamlit, scikit-learn, pandas, Plotly*

- Built and deployed a corporate credit-risk platform using 6,819 UCI firm observations and 12 financial-ratio features to estimate Probability of Default, risk category, and a 0–100 Financial Health Score.
- Implemented interpretable Logistic Regression and Random Forest models (ROC-AUC: 0.935 and 0.938), with risk-driver analysis, scenario-based stress testing, and an interactive Streamlit dashboard.
